We want you to get the most from competing with us so we've put together this list of things to check when entering and before you ride your test.

As well as some hard and fast rules around tack and safety, some of the things on this list make it easier for our judges to judge.

It might look like a long list, but a little bit of extra checking will ensure your efforts are seen in the best possible light by our judges.

Don't let a simple technical issue stop you from getting the marks that you and your horse deserve!
